THE EUROPEAN PICNIC

In September we started to realize the ERASMUS+ project. We knew the traditions and culture of European countries. 26th September 2016 during the European picnic we could taste the regional dishes from Romania, Czech Republic, Slovakia, France, Italy, Germany, Spain and Poland. They were prepared by our students and their parents.

OUR FRIENDS IN RADOM – THE VISIT IN POLAND

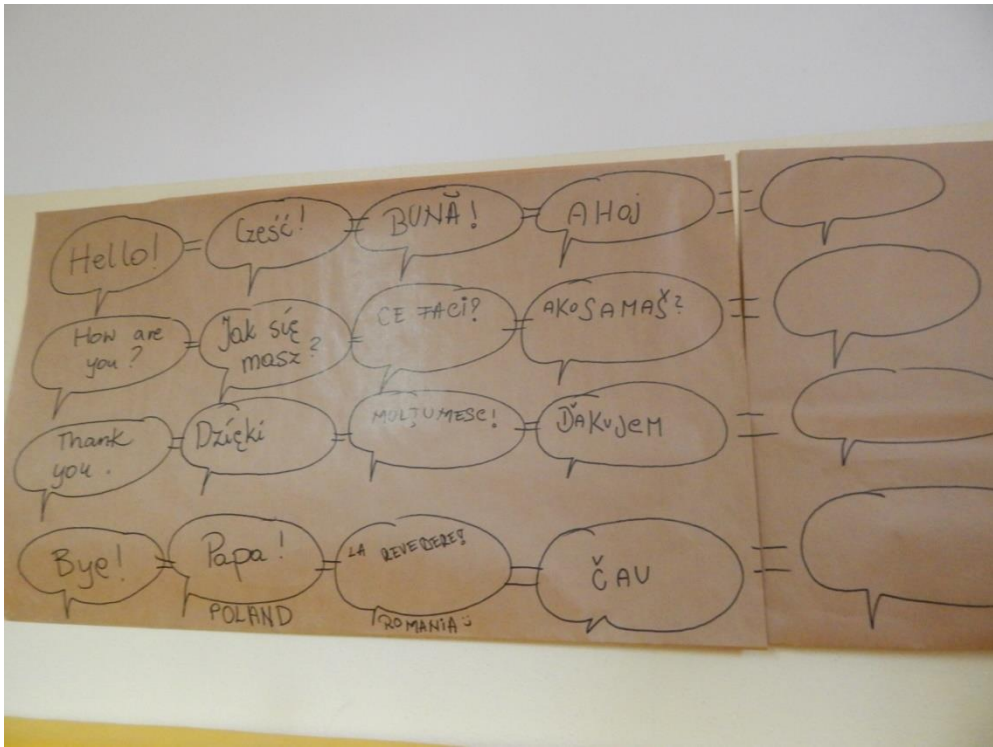

From the diary...(Radom/ Poland)

Monday 28th November, 2016

Impatiently we are waiting for our guests. In a minute... pupils along with their teachers will already arrive to our school! They will come from the Czech Republic, Slovakia and Romania. An international meeting is starting as part of the Erasmus + project . One can see, that guests are surprised with appearance of our school. The guests are surprised. They are looking around the corridors and the school hall. Fortunately, we are starting the integration games, playing together, presenting, smiling to ourselves, we are inviting to lessons. We are very happy.

The second day of the visit in ZSI.

It was very tired but interesting day. We visited some vocational schools in Radom, we had the workshop, took professional photos, repaired car's lights. At last we met with the majority of our town and talked about our project Erasmus+.

In both institutions we were welcomed very warmly. We took part in the practical parts of the activities which were to introduce us to the specificity of these schools. Next, we visited the Team of Car Schools. We were observing technical classes as well as we were witnesses of the technical inspection of the car. We finished this busy day at the Town Office of Radom, where we met with the Secretary of the City. We also had the possibility to take part in the work of the clerk.

The third day

Another interesting day. Today we were in the capital of Poland -Warsaw. We listened about the tragic history to this city with great interest In spite of the thick snow and the icy cold wind, we walked with narrow small streets of the Warsaw Old Town. Undoubtedly, that day, a game lesson was an intense attraction in the centre of Springboards. It turned out that the saltation was giving much joy, but isn't so simple, how it seems. We came home late at night and very much it was hard for us to part.

Thursday, 1st December, 2016

After three days we are friends. We talk, play together, do shopping.

Today there was the meeting with the career's worker. We knew about the most popular job in Poland, Radom and the best high schools.

After lunch we went to the Art school where we could draw, paint. The next we had the workshop and we prepared pillow to high heels, frames and bags. It was the special Romanian day too.

Friday, 2nd December, 2016

The last day of the visit in Radom.

It is impossible, the time is going so fast.

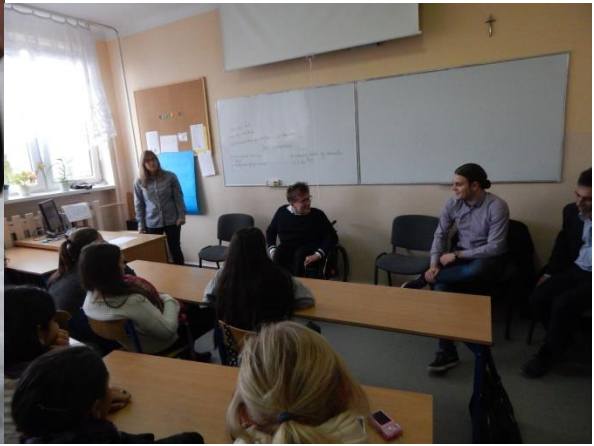

Today we were going to the Criminal Laboratory. We have known what dactyloscopy and osmology are. We were looking at the dog's show.

At school there were school friends and parents. We were talking with them about their school, dreams, job, future and family.

The next we were learning craft and English, we were listening the concert at the Music school.

The ending of our visit is comming. We are making an evaluation, we are taking photos are getting some gifts and the certificates.

Everybody is sad. We hope, we will meet together in Romania in May.
